

COMPANY **PROFILE**

Building More Than Structures.

Building Trust.

AL FANAR Building Contracting is a professional construction and contracting company committed to delivering high-quality projects through engineering expertise, skilled professionals, modern construction methods, and disciplined project management. Like the lighthouse in our name, we guide every project from concept to completion with clarity, precision and unwavering reliability.

AL FANAR Building Contracting is powered by a skilled technical and management team, enabling us to execute projects with high efficiency and uncompromising professionalism. We consistently implement the latest construction and architectural engineering technologies, continuously advancing our capabilities by collaborating with seasoned consultants and top industry talent. Headquartered in Sharjah, United Arab Emirates, AL FANAR aims to establish a leading presence in the contracting sector and actively contribute to the ongoing urban development across the UAE and the wider region.

OUR VISION

A Beacon for the Future of Building

Just as a lighthouse guides ships safely to shore, AL FANAR guides every project toward successful completion. Our vision is to become a leading name in the construction industry — shaping the future of urban development through innovation, quality and sustainable growth.

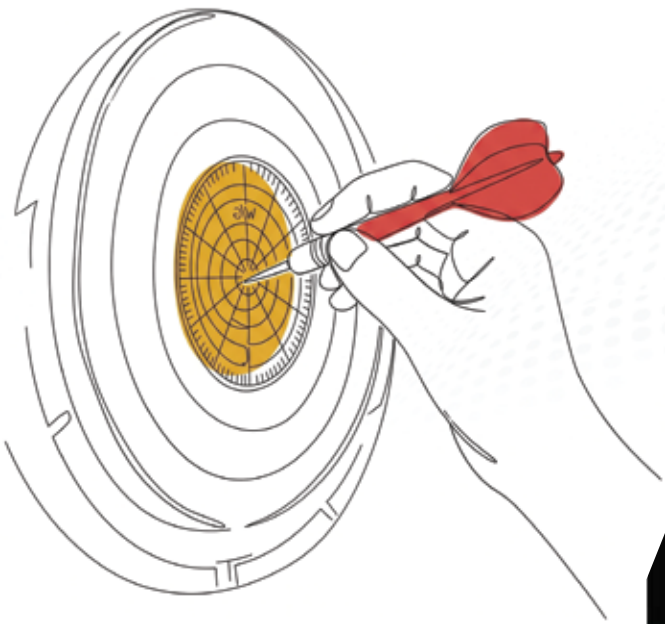

OUR MISSION

Delivering Vision Through Engineering Discipline.

Our mission is to deliver high-quality construction and contracting solutions while upholding the highest standards of quality, safety, professionalism and commitment. AL FANAR transforms client visions into successful, lasting projects through efficient planning, skilled execution and reliable delivery — on time, on budget, and built to endure.

OUR Values

The Principles We Build On

Quality

Uncompromising standards in every material, detail and finish

Integrity

Honest, transparent dealings with every client and partner

Commitment

Delivering on time, on budget, every time.

Safety

A secure site and protected workforce on every project.

Innovation

Modern methods and smart engineering solutions.

Client Satisfaction

Uncompromising standards in every material, detail and finish

OUR Services

Towards Integrated Architectural Horizons

We provide comprehensive engineering and construction solutions covering the entire project lifecycle—from planning and foundation work to precise finishing, systems installation, operation, and maintenance, adhering to advanced technologies and strict quality and safety standards.

Turnkey Construction Projects

We deliver comprehensive turnkey construction solutions from initial design through final handover, ensuring top-tier quality for all residential and commercial builds.

Reinforced Concrete & Foundation Works

Our team executes high-precision earthworks, foundation casting, and reinforced concrete framing strictly aligned with international structural safety standards.

Structural Steel Fabrication & Erection

We manufacture and assemble heavy-duty structural steel frameworks and trusses engineered specifically for modern industrial plants and large-scale warehouses.

Interior Fit-Out & Architectural Finishes

We transform indoor environments using premium architectural finishes, suspended ceilings, and modern gypsum partitions tailored to refined modern aesthetics.

Paving & External Infrastructure

We carry out complete site leveling and external paving works. Our team installs durable interlock tiles and kerbstones. We build robust pathways designed for heavy traffic use.

OUR Services

Towards Integrated Architectural Horizons

We provide comprehensive engineering and construction solutions covering the entire project lifecycle—from planning and foundation work to precise finishing, systems installation, operation, and maintenance, adhering to advanced technologies and strict quality and safety standards.

Modern Façades & Cladding Works

We install modern aluminum cladding and curtain wall glass systems. Our stone cladding adds timeless elegance and superior thermal protection. Every exterior façade is built to withstand harsh weather conditions.

Electrical & Lighting Infrastructure

We install complete electrical wiring and main distribution panels safely. Our advanced lighting systems provide optimal interior and exterior coverage. All infrastructure strictly complies with high electrical safety codes.

Low Current & Smart Systems

We integrate smart CCTV cameras, access controls, and sound networks. Our data cabling solutions deliver fast and secure digital connectivity. We provide seamless smart automation tailored to modern building needs.

HVAC & Ventilation Systems

We supply and install central air conditioning and custom ductwork. Our mechanical ventilation units ensure fresh and continuous air exchange. We deliver energy-efficient cooling solutions for maximum occupant comfort.

Plumbing & Drainage Networks

We execute high-grade water supply lines and modern pump stations. Our team installs heavy-duty drainage and rainwater harvesting systems. Every pipe network is leak-tested to ensure reliable long-term performance.

OUR Services

Towards Integrated Architectural Horizons

We provide comprehensive engineering and construction solutions covering the entire project lifecycle—from planning and foundation work to precise finishing, systems installation, operation, and maintenance, adhering to advanced technologies and strict quality and safety standards.

Firefighting & Alarm Systems

We install certified fire pumps and automatic sprinkler networks. Our smart alarm systems guarantee early hazard detection. All installations fully meet strict civil defense safety standards.

Waterproofing & Thermal Insulation

We supply and install luxury marble, porcelain, and fine parquet with laser-level precision to guarantee long-lasting durability and exceptional elegance.

Flooring & Marble Installation

We supply and install luxury marble, porcelain, and fine parquet with laser-level precision to guarantee long-lasting durability and exceptional elegance.

Waterproofing & Thermal Insulation

We create green softscapes and install automated irrigation systems. Our experts construct modern pools and architectural fountains. We deliver beautiful outdoor spaces that elevate property appeal.

Structural Retrofitting & Facility Maintenance

We supply and install luxury marble, porcelain, and fine parquet with laser-level precision to guarantee long-lasting durability and exceptional elegance.

WHY AL FANAR?

AL FANAR is powered by experienced civil engineers, project managers, site supervisors and skilled technicians. Every project is guided by professionals who bring precision, accountability and craftsmanship to the site — the same qualities the lighthouse in our name represents: steady guidance from start to finish.
